

AERO FLOW SUB-ZERO VEST

Brave the extreme heat with confidence

Innovative air supply cooling vest that connects with compressed air machine to deliver cool air continuously. The maximum body temperature can be reduced by 19°C providing safe and comfortable cooling experience.

Multiple applications: Metal processing, wood processing, welding, bonding and other industries.

Rapid Cooling

Balanced Ventilation

Low Noise

Safety and Comfort

Flame Retardant

Features

Easy adjustment, mis-operation prevention

Adjust air flow and temperature by pressing the control knob, ensure working safety.

Comfort airflow, anti-scald design for safety

Air outward design, safe and reliable, preventing scalding during operation.

360° rotation, unobstructed air intake

The cooling valve can be rotated 360° to ensure unobstructed air intake and flexibly fit different operating environments.

Simple design, easy to clean

Spare parts are easy to clean, saving maintenance costs, and have a longer service life.
